

Build a Digging Box

PLUS: Learn the differences between Rabbits and Hares

How to Build Your Own Rabbit Enrichment

1. Find a box that is low enough for your rabbit to be able to jump in and out of.
2. Shred some regular paper (no inky or glossy) and fill the box.
 - a. Cut or shred the paper about 1 cm wide.
 - b. Crumple the paper a bit as you put it in the box.
3. **Optional:** fill the bottom of the box with toilet/paper towel rolls
4. Hide treats throughout the box to let your rabbit go and dig for!

Differences between Hares and Rabbits...

Hare Features

- Larger ears, feet and back legs
- Camouflage in winter from brown tones to white fur
- Born with fur and above ground

Rabbit Features

- Smaller and weaker than Hares
- Same colour all year around and come in a variety of colours
- Born blind and hairless

Be a Paws-itive Influence...

Always go at your rabbits pace – Use positive reinforcement and reward based training to help your rabbit gain confidence when trying new things.
